CULINARY HINTS

SCONES: Use a 5cm. floured cutter. Do not twist cutter, as it will cause uneven rising. For competitive work scones should not touch during baking. Glaze with milk or beaten egg yolk and milk. Appearance, uniformity of size, shape and height are important factors. Volume, well risen. Smooth, tender, even golden brown colour on top and base. Texture, light and flaky, medium fine grain. Crumb has silky sheen with good response to touch and colour is clean.

PUMPKIN SCONES: Use creaming method and dry blue pumpkin, wet pumpkin will make a heavy scone.

TEA CAKE: A flat shallow pan is required for a teacake and the traditional shape is round so that it can be cut into wedges. The teacake should be very light, have a fine even grain and a tender moist crumb. The top should have very little dome, that is, be fairly flat. The sides should be perfectly straight and clean.

PIKELETS: A pikelet is made from thin batter. A thin batter should have equal quantities of liquid and flour. The two surfaces should have a delicate golden brown skin with no large burst air bubbles. Pikelets should be free from blemishes. The Sides between the surfaces should be white and dry with no uncooked wet ring. They must be well risen and uniform in size and shape (round).

CHOCOLATE CAKE: Flavour and aroma should be rich chocolate. Dust tins with cocoa.

ORANGE CAKE: A creamed texture. Eggs with dark yolks to help give the cake a rich colour. The texture fine, soft and even. There should be no coarseness from too much orange juice.

PATTY CAKES: Small, dainty and attractive. Tops should be domed. Cauliflower tops will lose points. The colour delicate brown, skin fine and even.

BISCUITS: Biscuits are evaluated on mixture, appearance (shape, size, variety and thickness), crust, texture, colour inside, colour, aroma, decorations, originality and presentation. A biscuit is short, crisp, well flavoured, carefully mixed, well-shaped, cooked with quality ingredients and decorated beautifully.

PUMPKIN FRUIT CAKE: A creamed mixture butter cake. Spices and cocoa may be added. This cake should be golden yellow or spicy brown colour and fine skinned.

BOILED FRUIT CAKE: Not heavily fruited. Tins, 20cm. round or 18cm. square and 10cm. in height. Shiny top skin, colour should be even rich brown continuing from top to sides and base. Sides, smooth and vertical. Cake should cut without dragging out the fruit. Texture, fine, even, free from holes, firm and moist, fruit unidentifiable and uniform in quality and size and evenly distributed.

FRUIT CAKE: High points for a cake that will cut without crumbling and without loss of fruit. Texture, firm, moist, smooth, fine, even and free from holes. Not too moist or too dry. The top should be only slightly domed. The crust should be smooth and fine with no cracks or sugar specks. The sides should be smooth and vertical with no blemishes from careless papering. The base should be smooth. There should be no variation of the rich even brown colour, which the whole cake, top, sides and bottom should have. Fruit, evenly distributed, bright good quality, plump and fleshy, uniform in size and shape, not too large or too small and not minced or chopped beyond recognition. Cut raisins in half, leave sultanas and currants whole. Dust cut cherries with flour, cut almonds into slivers and prunes, dates, figs, ginger, glace, apricots and pineapple into small pieces. High points to correct fruit size. There should be no excess of spices or colourings.

COCONUT ICE: 113-116 degrees (soft boil) cool to lukewarm - 43 degrees. Use of glucose will prevent discolouring. Coconut should be white and fresh and in proportion. Pink layer should be delicate. Pieces approx. 25mm. square. Select pieces same size and shape.

TOFFEE: Pale straw colour. Should be able to see through it, non crystalline.

BREAD: Loaf must be correctly moulded to achieve good shape. Crust should be golden brown. Bloom, special sparkle from natural oils and sugars in flour. Volume, well risen from correctly ripened dough. Texture, white and fine. Crumb, white not grey. Wholemeal will be darker and courser. Flavour and Aroma, wholesome and not sour.
